## Dear Colleagues and Friends

*It is my pleasure and honor to invite you to the National Congress of Romanian Paediatric Surgeons' Association with international participation, which will be held 19 – 21<sup>st</sup> May 2010 in Brasov, Romania. Brasov is one of the most representative cities of Romania, a historical and tourist center, with an old, medieval downtown going back to the 11<sup>th</sup> Century. It offers a lot of local attractions, both cultural and for entertainment. Situated in an area surrounded by Carpathians Mountains, close to the most popular and large winter sports resort Poiana Brasov, the city will charm you and make you come again. The surroundings of the city have a lot of historical and tourist places, a landmark being represented by Bran Castle, one of the legendary Dracula's castles.*

*The Academic life is represented by a well known institution, "Transilvania" University, with a lot of faculties from basic sciences, to engineering, humanistic, medical and artistic profiles, all with a well known tradition and prestige. The artistic life is represented by Drama and Opera Theatres, Philharmonic Orchestra and several museums. A wide variety of nice and elegant hotels, restaurants and cafes are offering international and traditional cuisine and hospitality. Ramada Hotel is one of the well known locations of the famous and elegant hotel chain and it offers excellent conditions for the meeting and accommodation in very picturesque scenery.*

*This year's congress is proposing several topics of great interest for the paediatric surgeons and not only, the main subject is addressing also to the other paediatric surgical specialties. We have invited as special guest some outstanding specialists from different parts of the World who will not only present a series of conferences and seminars during the Congress, but will also conduct a pre-congress workshop on Paediatric Urology, as well as a post-congress workshop on Paediatric Laparoscopy. The social program will offer several unforgettable moments and will definitely contribute to establish and encourage connections and friendship between specialists and young trainees from different countries.*

*Therefore I warmly invite you to attend our meeting and be part of a memorable event.*
