*April 30th and May 1st, 2010
Bratislava, Slovakia*

PRELIMINARY PROGRAM

3rd Central & Eastern European Postgraduate Course of Pediatric Surgery

Dear Colleagues and Friends,

It is our privilege and pleasure to invite you to participate in the 3rd Central & Eastern European Postgraduate Course in Pediatric Surgery accredited by EUPSA, which will be held in Bratislava, Slovakia, from April 30th to May 1st, 2010. The course will give a very good overview of central topics in neonatal and paediatric surgery.

Slovakia is a country located in Central Europe. The capital city of the Slovak Republic is Bratislava. Its history dates back to the Old Ages. During the course of the centuries it changed its name several times: from the German Pressburg, Latin Possonium, Hungarian Pozsony, to the Slovak folk version Presporok. The city lies at the foot of the Small Carpathian Mountain Range and is tightly linked to the Danube River. The suitable geographic position was a predetermining factor for Bratislava's famous past and present. In the meantime, the metropolis on the Danube River became a modern city, attracting visitors with a multitude of cultural offering, congress and shopping centers, as well as international standard hotels, together with a diverse culinary offer. Please accept this invitation to the really central European city with its roots deep in the past, lively present and ambitious outlook to the future.

We continue in the EUPSA tradition to organize the Central and Eastern European Postgraduate Course in Pediatric Surgery. Your presence will help us to accomplish a productive meeting filled with friendship. We hope that a large number of participants from the region and abroad will join us and contribute to the success of this course in the city of Bratislava. The local organizing team and the members of EUPSA Education Office welcome you in Bratislava.

Hans Skari
Chairman of the Education Office
EUPSA

Marian Vidiscak
